DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 24 and 29 – 32, drawn to a method and storage medium for searching for a signal route, classified in class 716, subclass 12.
 - II. Claim 25, drawn to a method of carrying out timing analysis on data and clock routes, classified in class 716, subclass 6.
 - III. Claim 26, drawn to a method for carrying out a waveform analysis on a clock route by analyzing the clock pulse width, classified in class 716, subclass 5.
 - IV. Claims 27 and 28, drawn to a method for carrying out a simulation for verification based on data and clock route data information, classified in class 716, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I, Group II, Group III and Group IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as a signal route searching methodology; invention Group II has separate utility such as timing analysis of data and clock routes; invention Group III has separate utility such as waveform analysis of clock routes by analyzing clock pulse width; and invention Group IV has separate utility such as circuit simulation based on route data information. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for each for the four distinct groups are exclusive, restriction for examination purposes as indicated is proper.

4. Applicants are advised that the reply to this restriction requirement to be complete must include an election of the invention to be examined even though the requirement can be traversed (37 CFR 1.143).

5. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
